Satisfactory Academic Progress Policy

Policy
The Satisfactory Academic Progress Policy is consistently applied to all students enrolled in the school whether participating in Title IV programs or not. It is printed in the catalog to ensure that all students receive a copy prior to the first day of class. The policy complies with the guidelines established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the federal regulations established by the United States Department of Education.

Evaluation Periods
Students are evaluated for Satisfactory Academic Progress based on actual hours as follows:

<table>
<thead>
<tr>
<th>Program</th>
<th>Evaluation Period</th>

</thead>
<tbody>
<tr>
<td>240 Hr</td>
<td>121</td>

<tr>

</tr>
</tbody>
</table>

Evaluations will determine if the student has met the minimum requirements for satisfactory academic progress. The frequency of evaluations ensures that students have ample opportunity to meet both the attendance and academic progress requirements of at least one evaluation by midpoint in the course.

Attendance Progress Evaluations
Students are required to attend a minimum of 75% of the hours possible based on the applicable attendance schedule in order to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled at the end of each evaluation period. The school will determine if the student has maintained at least 75% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

Academic Progress Evaluations
The qualitative element used to determine academic progress is a reasonable system of grades as determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit study. Practical assignments are evaluated as completed and counted towards course completion only when rated as satisfactory or better. If the performance does not meet satisfactory requirements, it is not counted and the performance must be repeated. At least two comprehensive practical skills evaluations will be conducted during the course of study. Practical skills are evaluated according to text procedures and set practical skills evaluation criteria adopted by the school. Student must maintain a written grade average of 80% and pass a FINAL written and practical exam prior to graduation. Student must make up failed or missed test and incomplete assignments. Numerical grades are considered according to the following scale:

- 100 – 90 = A (Excellent)
- 89 – 80 = B (Average)
- 79 or below = F (Below Average)
- P = Passing (must be 80 or above)
- F = Fail (79 or below)

Maximum Time Frame
The maximum time (which does not exceed 1.33 of the course length) allowed for student to complete each course at satisfactory progress is stated below:

The maximum time allowed for transfer students who need less than the full course requirements or part-time students will be determined based on 75% of the scheduled hours.

Determination of Progress Status

Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will receive a hard-copy of their Satisfactory Academic Progress Determination at the time of each of the evaluations. Students deemed not maintaining Satisfactory Academic Progress may have their Title IV Funding interrupted, unless the student is on warning or has prevailed upon appeal resulting in a status of probation.

Warning

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning and are considered to be making satisfactory academic progress until the next evaluation. If at the end of the warning period, the student has still not met both the attendance and academic requirements, he/she may be placed on probation and, if applicable, students may be deemed ineligible to receive Title IV funds.

Probation

Students who fail to meet minimum requirements for attendance or academic progress after the warning period will be placed on probation and considered to be making satisfactory academic progress while during the probationary period, if the student appeals the decision, and prevails upon appeal. Additionally, only students who have the ability to meet the Satisfactory Academic Progress policy standards by the end of the evaluation period may be placed on probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period. Students who are progressing according to their specific academic plan will be considered making Satisfactory Academic Progress. The student will be advised in writing of the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for satisfactory academic progress or by the academic plan, he/she will be determined as NOT making satisfactory academic progress and, if applicable, students will not be deemed eligible to receive Title IV funds.

Re-Establishment of Satisfactory Academic Progress

Students may re-establish satisfactory academic progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of the probationary period.

Interruptions, Course Incompletes, Withdrawals

If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student’s contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student’s cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll will return in the same satisfactory academic progress status as at the time of withdrawal.
**Appeal Procedure**

If a student is determined to not be making satisfactory academic progress, the student may appeal the determination within ten calendar days. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or any other allowable special mitigating circumstance. The student must submit a written appeal to the school on the designated form with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student's situation that will allow them to achieve Satisfactory Academic Progress by the next evaluation point. Appeal documents will be reviewed and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed and federal financial aid will be reinstated, if applicable.

**Noncredit and Remedial Courses**

Noncredit and remedial courses do not apply to the institution. Therefore, these items have no effect upon the school's satisfactory progress standards.

**Transfer Hours**

With regard to Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and completed hours for the purpose of determining when the allowable maximum time frame has been exhausted. SAP evaluation periods are based on actual contracted hours at the institution.

**Attendance**

**Policy**

Students must Clock In and Out on the computer in their Education Center. All attendance hours will be rounded to the nearest quarter hour. A student must maintain a minimum of 75% of his or her contracted hours. Student's attendance will be monitored monthly. All absences must be called into the office at ext. 304.

**Leave of Absences**

Leave of absence (LOA) is a temporary interruption in a student's program of study at the request of the student for personal reasons. The request of the student must be submitted in advance in writing, include the reason for the student's request and include the student's signature. The student must have the expectation that they will return from the LOA to finish their program. In the case of unforeseen circumstances such as injury, the request can be made verbally. The student must then fill out the proper form as soon as they are able. In the case of unforeseen circumstances, the leave of absence will be dated for the first day the student was unable to attend. No additional charges will result from the LOA. LOA must be a minimum of 10 days and a maximum of 180 days in any 12 month period. A student's contract will be extended by the same number of days taken in the LOA. A contract addendum with the new dates will be signed by all parties.

**Class Change Policy**

Class changes from nights to days or days to nights are allowed one time unless there are mitigating circumstances.

**Financial Aid**

Financial Aid is available to those who qualify. The Financial Aid office requires an entrance interview with all prospective students. Materials regarding financial aid are distributed free of charge.

Bene's International School of Beauty, Inc. participates in five federal programs of assistance – Federal Pell Grant, FSEOG, Federal Work Study and Federal Stafford Loans (subsidized and unsubsidized). The amount and type of financial aid offered is based upon financial need as determined by the federal government's system of need analysis. All students will qualify for loans, either through subsidized/unsubsidized guaranteed student loans; the exception would be a student who is in default on a previous student loan, or a student who has been convicted of possessing or selling illegal drugs.

**Application Process**

In order to apply for federal financial aid, the student must complete the application for federal student aid (FAFSA), and furnish the necessary documentation required for verification of information submitted. An interview is appropriate and required in almost all circumstances.

After the application is completed by the student, the information will be sent to a servicer--to determine the financial aid eligibility. Once eligibility is determined, the financial aid office
will develop a breakdown showing the estimated charges and the financial aid that will cover those charges.

**Financial Aid Programs**

**FEDERAL PELL GRANT:** A federal program of grants (gift) based on demonstrated financial need. Upon receipt of the Student Aid Report, it is signed by the student and used by this institution to receive aid for the student. The maximum annual award is $4,310.00. It may change on an annual basis.

**SUBSIDIZED FEDERAL DIRECT STAFFORD LOANS:** This is a low-interest, long term loan program available through the U.S. Department of Education. Special applications are available in the financial aid office. The loan is guaranteed by an agency of the federal government. Interest does not accrue and repayment does not begin while the student is attending an approved school at least on a half-time basis. There is usually a six month grace period after a student leaves school before repayment begins. This loan is based on financial need. **THIS IS A LOAN AND MUST BE REPAYED BY THE STUDENT.** An origination fee and a guarantee fee are charged by the lender and deducted from the proceeds of each disbursement. The maximum that may be borrowed for the first year of academic school is $3,500. **THIS IS A LOAN AND MUST BE REPAYED BY THE STUDENT.**

**UN-SUBSIDIZED FEDERAL DIRECT STAFFORD LOANS:** This is a loan guaranteed by the federal government. It is available to students who may require additional funds beyond the subsidized Stafford Loan. The government does not pay the interest while the student is attending school, but interest and principal can be deferred until six months after graduation, or it may be repaid while the student is attending school. Interest rates are identical to the subsidized Stafford Loans. It is strongly recommended that students borrow under this program only what is absolutely necessary to meet educational expenses. **THIS IS A LOAN AND MUST BE REPAYED BY THE STUDENT.**

**FSEOG:** A gift award that is based on financial need. If you are awarded the Federal Pell Grant, you will receive first priority for this grant. An FSEOG does not require repayment.

**Federal Work Study:** Based on financial need. See Financial Aid for details.

*We are also approved for training grants from vocational rehabilitation and Veteran's training. See office for details.*

After all applicable returns to TIV aid have been made, this refund policy will apply to determine the amount earned by the school and owed by the student. Degrees of discipline are generally progressive and are used to ensure that the student has the opportunity to correct his or her performance. There is no set standard of how many oral warnings must be given prior to a written warning or how many written warnings must precede termination.

Factors to be considered are:

- How many offenses are involved
- The seriousness of the offense
- The time interval and student response to prior disciplinary action

In cases of serious offenses such as fighting, theft, threats of violence, the sale or possession of drugs or abuse of alcohol on company campus, termination may be the first and only disciplinary step taken.

In general, the sequence of warnings will be oral, written and the discharge.

A student who is being loud, disrespectful to other students or staff, argumentative, using inappropriate language, or leaves the campus without permission/clocking out, may be sent home for the day and must meet with the attendance person before returning to school. Student Grievance Procedure

In accordance with the institution’s mission statement, the school will make every attempt to resolve any student complaint that is not frivolous or without merit. Complaint procedures will be included in new student orientation thereby assuring that all students know the steps to follow should they desire to register a complaint at any time. Evidence of final resolution of all complaints will be retained in school files in order to determine the frequency, nature, and patterns of complaints for the institution. The following procedure outlines the specific steps of the complaint process.

1. The student should register the complaint in writing on the designated form provided by the institution within 60 days of the date that the act which is the subject of the grievance occurred.
2. The complaint form will be given to the school Director.
3. The complaint will be reviewed by management and a response will be sent in writing to the student within 30 days of receiving the complaint. The initial response may not provide for final resolution of the problem but will notify the student of continued investigation and/or actions being taken regarding the complaint.
4. If the complaint is of such nature that it cannot be resolved by the management, it will be referred to an appropriate agency if applicable.

5. Depending on the extent and nature of the complaint, interviews with appropriate staff and other students may be necessary to reach a final resolution of the complaint.

6. In cases of extreme conflict, it may be necessary to conduct an informal hearing regarding the complaint. If necessary, management will appoint a hearing committee consisting of one member selected by the school who has had no involvement in the dispute and who may also be a corporate officer, another member who may not be related to the student filing the complaint or another student in the school, and another member who may not be employed by the school or related to the school owners.
